Last week Mouse returned to St. Kevin's to ignite our imaginations about the bio-diversity all around us in St. Kevin's. It was a really cool visit. The first thing we did was try out the challenge that Mouse set us. We had to collect all the twigs, small branches and leaves we could in the school garden and build a nest in under a minute. We then had to make sure the egg we put in the nest stayed in the nest for more than ten seconds!! After that Mouse showed us the frogspawn and tadpoles he had brought in. We had the chance to look at the frogspawn really closely and it was really cool. After that we learned a little more about mini-beast life cycles, it was cool - thanks Mouse, you're the best!!
